TREASURY SURPLUS IN AUGUST NEARLY SIX MILLION DOLLARS.

Gain Unexpected in View of the Deep Cut Made by Congress in Internal Revenue Taxation.

WASHINGTON, Aug. 30 .- The receipts of the Treasury Department for the month of August just closing, exceeded the expenditures by \$5,955,812, an unpectedly large surplus. The total receipts were \$48,605,812 and the expenditures \$42,650,000. For the same month of last year the total receipts were \$45,394,125, and the expenditures \$39,351,497, a surplus of a little over \$6,000,000. The big surplus this month has been attained in the face of the heavy cut made by Congress in the way of wiping off the books the taxes imposed on account of the war with Spain. The act of Congress decreased the receipts by something like \$6,500,000 a month. In fact, in July the receipts from internal revenue fell off more than that figure as the result of the cut. This month the reduction is not so large.

.The receipts from the different sources have been as follows: Customs, \$26,582,230; internal revenue, \$17,525,368; miscellaneous, \$4,498,213. For August of last year the customs receipts were \$21,462,171, and internal revenue \$22,036,784. The increase in customs receipts over the same month of the corresponding year is over \$5,000,000, showily abroad each month. The falling off from internal revenue is less than \$5,000,000. The expenditures are something over \$2,000,000 greater than for the same month

Wants Justice Done Chinese. WASHINGTON, Aug. 30.-The Chinese government, through its legation here, has asked the State Department to see that justice is done by the State of Oregon to the Chinese who were attacked by rioters in Baker City, Ore., on Aug. 8. On that date about fifty Chinese who were employed in the city were attacked by a mob, three of them were shot and the remainder were driven out of the town and forbidden to return. The matter was promptly reported to the Chinese legation by the nearest Chinese consul, and, the legation authorities having awaited what they considered a reasonable time for some sign of activity on the part of the local authorities, have now presented the matter to the Stae Department, pointing out that they do so because the local authorities have shown no disposition to prosecute the offenders and make reparation. The department will, following the usual course, forward the complaint to the Governor of Oregon with the request for an explanation.

The government was endeavoring to prevent Killick from obtaining coal. Congress has at last passed on all of the election cases, and effected a permanent organization, Mr. Pierre having a majority of the chambers, without trouble occurring, as was expected. The next step is the election of members of the Senate and an effort is being made to stop this by breaking a election to the presidency. There were fears of grave trouble when the two houses were to meet in joint session to choose a President, and an attempt was on foot to reach an agreement between the various partisans to secure a postponement until the conflict with Firmin was ended. FORTY-THREE MENCAUGHT

ARMITAGE'S GAMBLING ROOMS RAIDED BY THE POLICE.

Twenty Minutes Before the Raid One Hundred and Fifty Men Were

in the Place.

The turnkey's office at the police station swarmed with men last night at 11 o'clock when Captain Kruger, with Sergeant Scheigert and Bicycle Policemen Streit and Losh, arrested forty-three men on the charge of visiting a gambling house. The men were caught in James Armitage's place over 311 West Washington street. The police had no difficulty in getting into the rooms. Sergeant Scheigert, with Captain Kruger and two patrolmen, ascended the stairs at the front of the saloon. No lookout was kept and the policemen walked into the middle of a room where three tables were filled with men playing poker. In a room adjoining twenty-six men were gathered around a table shooting dice. Captain Kruger confiscated three poker tables, a large amount of poker chips and playing cards. Armitage, who was slated for keeping the gambling house, went on the bonds of the men arrested for visiting brother's bond. The men arrested gave fictitious names and residences, Armitage, after the arrest, told Captain Kruger that had the visit been twenty minutes sooner 150 men would have been caught. He said that a fuse in the lighting apparatus burned out and the room was in darkness for a long time. He said
